# GENERAL INFORMATION

GENERAL  
INFORMATION

## GENERAL INFORMATION

### 1. OFFICIAL LONG DISTANCE ON-ISLAND TELEPHONE CALLS:

To initiate an official long distance on island call, use a U.S. official military telephone and ask Taipei Switch or the nearest DICS operator for the desired exchange or locality. If no U.S. military telephone is available, a GRC military or commercial telephone approved for placing calls over the DICS may be used. Commercial toll calls may be made only when all U.S. circuits are out of order (not just busy) and the nature of the call is of sufficient military importance that it would seriously impair the caller's mission to wait for restoration of a U.S. circuit.

### 2. OFFICIAL OFF-ISLAND TELEPHONE CALLS:

a. Official unclassified off-island telephone calls to Japan, Philippine Islands, Okinawa, Hawaii, Guam, Korea, United States and the Off-Shore Islands may be placed through the following systems.

(1) Strategic Army Communications System (STAR-COM) - To Japan, Philippine Islands, Okinawa, Hawaii, Korea, or the United States. Call TAIPEI SWITCH, ask for Army overseas operator and state the location, organization, and the name or telephone number of the called party.

(2) Air Force Radio Telephone - To Clark AFB, P.I., Kadena AFB, Okinawa or Guam; Hawaii and United States through Clark AFB. Call TAIPEI AIR STATION and give the operator the location, organization and name or telephone number of the called party. Also state your name, office section and telephone number.

(3) Pacific Air Forces' Command Voice Network - To Hickam AFB, Hawaii; Clark AFB, P.I.; Anderson AFB, Guam; Kadena AFB, Okinawa; Osan, Korea; Fuchu, Japan; and Johnson AFB, Japan. Call TPAS310 and give the radio operator the name, location, organization and telephone number of the called party. Also state your name, office section and telephone number.

(4) Commercially Provided Facilities - To locations outside the U.S. military telephone service area, e.g. Hong Kong. Individuals assigned to MAAG who are required to make official calls over international commercial circuits will first obtain authorization from the Secretary General Staff (SGS), 22573 or TS709 (during duty hours), or the MAAG Staff Duty Officer (SDO), 30990 or TS608 (during off-duty hours). The SGS or SDO will give the caller a number to

which the call will be billed. After obtaining this number, call the commercial operator, 26363 or 26364 and place the call. Individuals assigned to an organization other than MAAG should contact the office which controls their long distance calls, in order to obtain instructions or placing such calls.

> b. OFF-SHORE ISLAND CALLS: Calls to Kinmen, Matsu and the Penghus may be made by contacting the TAIPEI SWITCH operator. Since special security measures are in force for calls to Kinmen and Matsu, personnel making or receiving calls will identify themselves by duty position only. Reference to schedules of planes, passengers, or cargo will not be made.

### 3. PERSONAL LONG DISTANCE ON-ISLAND TELEPHONE CALLS:

Long distance calls on Taiwan may be made from any residential telephone. Personnel in Taipei dial 26796 for the long distance operator. Those in other cities ask for the long distance operator. Calls must be registered in the name of the telephone subscriber whose telephone is being used.

### 4. PERSONAL OFF-ISLAND TELEPHONE CALLS AND RADIOGRAMS:

International telephone and radiogram service is available to points outside of Taiwan over the Taiwan Telecommunication Administration Dial System. For information concerning this service call Taipei 26363 or 26364 (International Operator).

b. Organizational and Classified Listing: Units and agencies concerned will affect changes in these listings by forwarding them in writing to the office designated in para. 5. 1. (a).
